

RESIDENCY TRAINING AT KING FAHAD MEDICAL CITY

Dr. Khalid Al-Mobaireek, Director, Postgraduate and Scholarship Department, King Fahad Medical City has approached the College of Physicians and Surgeons Pakistan informing that King Fahad Medical City has openings for fellowship in

- Critical Care
- PICU
- NICU and
- Other medical, surgical and paediatric subspecialties.

Dr. Khalid Al-Mobaireek has asked the College to forward CV's from suitable candidates.

He has also informed in the letter that they seek residents for training in

- Hematology and
- Oncology.

Residents will spend one or two years in internal medicine and then will do specialty training in hematology and oncology. He is prepared to accommodate Four (4) residents in this program.

College is seeking further information from King Fahad Medical City and will soon invite applications from the candidates.
