

## **DISCLAIMER**

The workshops conducted by the Workshop Unit, Department of Medical Education of College of Physicians and Surgeons Pakistan are educational workshops to increase the expertise and knowledge of Health Professionals, so that they can perform their professional work more efficiently and also teach and train young doctors in a more systematic and scientific way. However, there is no guarantee that attending this workshop will ensure registration as a Supervisor, because the decision to appoint a Supervisor of CPSP, lies with the Research Training and Monitoring Cell (RTMC) of CPSP and not with the Workshop Unit of CPSP.
