3. VIVA VOCE II	40 minutes* *	10	6
4. VIVA VOCE III	40 minutes* *	10	6
Aggregate		60	36 (60%)

viva voce at each station will be a pair of examiners.

** 20 minutes by each examiner

FILM REPORTING SESSION (30 marks.....150 minutes)

The film reporting session will be held on the first day of the film reporting and oral examination. The candidates will have to report on 30 films/cases and will be assigned 5 minutes per film/case.

General Instructions

1. Entry with admit card only

The candidates must carry their admit cards which are required to be displayed on their aprons throughout the examination.

2. Response sheets

i) Prior to entering the examination hall each candidate will be provided with response sheet.

Candidates must write their ROLL NUMBER on the response sheet before starting the film reporting session.

ii) The candidate will only carry his/her response sheet while rotating through the stations. No other papers will be allowed in the examination hall.

3. The candidate is not supposed to remove any document or material from any station.

4. Carrying of cell phones by the candidates in the examination Hall is NOT ALLOWED.

Conduct of the examination

1. In the examination hall there will be 15 stations, each bearing a number from one to fifteen.
2. To start, the candidates would occupy the station according to the number allotted. Two films will be shown to the candidate at each station. The time allowed at each station is 10 minutes (five minutes per film) signaled by a bell.
3. When the bell rings the candidates are supposed to move to the next station.
4. Candidates will rotate through the stations in this way till they have completed all the stations. They will move only in one direction as displayed in the hall by arrow marks and will not be allowed to go back to the previous station.

Reporting on the films

In this section the candidates are expected to report:

- Name of examination/procedure and technique used.
- Salient features of the disease/abnormality seen (emphasize important positive and relevant negative features).
- Most likely diagnosis or if required the differential diagnosis.
- Suggest, if necessary, other radiological procedures/investigations to reach at a definite diagnosis.
- Suggestion of irrelevant investigation will be penalized by negative marks.

VIVA VOCE (3 stations: 10 marks & 40 minutes at each station)

The oral examination will be held on second or subsequent days of the examination.

Candidates will be examined at three stations by a pair of examiners at each station. They will be shown six films/cases by each examiner.

All systems of the human body will be covered in this part of the examination.

As the time for this section is short the answers given by the candidates should be precise and relevant to the film/case under discussion.

Note: It is mandatory for the candidates to fill the feedback proforma provided by the College and return it before leaving the examination hall.
